

S4 Screen and Blind System

The award-winning S4 Screen and Blind enables homeowners with large door openings to enjoy the luxury of inside-outside living without the traditional compromises – insects, glare and loss of privacy. Operating with just a fingertip, Centor's unique load balancing technology allows screens and blinds to glide smoothly across the whole door opening to effortlessly stop at any desired position. When not in use, the screen or blind retracts discreetly into the frame removing visual distractions to the view outside whilst also protecting it from damage, dust or dirt.

S4 Features

- Pair with new or existing doors or windows.
- Operates from any height with one hand so the youngest of family members can operate the screen.
- Screen and blind fabrics are held securely in place by top and bottom tabs, preventing screen blow-out – even in a breeze.
- The screen and blind are fully retained within the frame on all sides to allow total control of insects, sunlight and privacy.
- Can be mounted on the inside or outside – drainage holes are added to the sill for externally mounted systems.
- Sill cover is quick and easy to remove to make cleaning trouble free.
- Backed by a 5-year limited warranty.

Frame size

Suited for larger door openings, the S4 screen and blind system can go up to 3200mm high and 9185mm wide.¹

| Fabric type | Overall frame width (mm) | | | Overall frame height (mm) | Install location | |
|-----------------------------|--------------------------|-------------|---------------------|---------------------------|------------------|---------|
| | Single | Combo | Double ² | | Inside | Outside |
| Standard weave mesh | 1015 – 4611 | – | 1015 – 9013 | 815 – 3200 | ✓ | ✓ |
| Tight weave mesh | 1015 – 4011 | – | 1015 – 7813 | 815 – 3200 | ✓ | ✓ |
| Air weave mesh ³ | 1015 – 4697 | – | 1015 – 9185 | 815 – 3200 | ✓ | ✓ |
| Boston, blackout | 1015 – 3377 | 1015 – 3442 | 1015 – 6545 | 815 – 3002 | ✓ | |
| Boston, light-filtering | 1015 – 3577 | 1015 – 3642 | 1015 – 6945 | 815 – 3002 | ✓ | |
| Tuscany, blackout | 1015 – 3377 | 1015 – 3442 | 1015 – 6545 | 815 – 3002 | ✓ | |
| Tuscany, light-filtering | 1015 – 4011 | 1015 – 4076 | 1015 – 7813 | 815 – 3002 | ✓ | |
| Sun-filter | 1015 – 3377 | 1015 – 3442 | 1015 – 6545 | 815 – 3200 | | ✓ |

¹ Fabric widths are established by fabric thickness. Variations in fabric thickness may mean the maximum width can not be achieved. In these cases we offer an alternative colour or fabric type or an extended lead time to allow fabric to be resupplied from the mill.

² All screens over 5910 with require frame joiners to the head and sill.

³ Air weave mesh is coming soon. Please discuss availability with your Centor Representative.

Configurations

The S4 Screen and Blind complements large sliding and folding doors. It can be fitted to the inside or outside of the opening so you can maximise inside-outside living to its full potential.

Screen and blinds are available in four configurations:

Single

A single screen or blind that extends from one side of the frame and covers the full width of the opening.

Combination

A combination of two fabric types, with one housed in each side of the frame, such as a screen from the left and a blind from the right.

Double

Two screens or blinds (in the same fabric option), which meet at any point along the opening.

Cornerless

Two screens or blinds (in the same fabric option) meet at a 90-degree angle opening. This option allows for no corner posts to interrupt your view.

Aluminium frame

S4 is constructed from durable aluminium. Select from one of our popular standard colours below, one of the many other Centor standard colours available by visiting www.centor.com/screens or by specifying your own custom powder-coat colour to match existing doors and windows.

Matt Black

Pearl White Gloss

Natural anodised

Blinds

Interior blinds

Luxury blind fabrics available in exterior, light-filtering and blackout with a choice of stylish patterns and a range of colours to suit every home.

Boston

Tuscany

Exterior blinds

Sun-filtering fabric that is designed for outdoor use. The exterior blind is perfect for systems that are specified to be used on the outside of the opening.

Sun-filter

Insect screens

Screen mesh is available in three different weave styles with no pleats or sliding panels to detract from the view:

Air weave

New, state-of-the-art mesh which improves airflow and visibility by 30% when compared to our standard weave mesh.

Openness: 57.9%

Standard weave

Keeps insects like moths, flies and mosquitoes outside, while standing the test of time with a durable polyester/PVC mesh construction.

Openness: 45.6%

Tight weave

Made from the same durable material as our standard weave but features a smaller aperture to protect homeowners against tiny insects like midges.

Openness: 36.6%
